GETTING STARTED

Hi! What is BoostMe?

B

I post your photos and videos to Facebook, Instagram and TikTok at the times you choose, and email you a summary every Monday.

How do I log in?

B

Go to boostme.swiftfusion.co.za and use the email and password your account manager sent you. Change the password under My account.

CONNECT YOUR ACCOUNTS (ONCE)

How do you get access to my pages? I don't want to share passwords.

B

You never share passwords. On your Dashboard, press Connect next to Facebook. Log in to Facebook yourself and tick your business Page and its Instagram account. Done: both connect together.

Instagram didn't connect?

B

Instagram must be a Business or Creator account linked to your Facebook Page. Instagram app > Settings > Account type. Then link it to the Page in Meta Business Suite and press Reconnect.

And TikTok?

B

Press Connect next to TikTok and log in to your TikTok account in the window that opens. That's it.

POSTING

How do I add a post?

B

Press New post.
1. Add up to 10 photos or one video.
2. Write a caption.
3. Tick Facebook, Instagram and/or TikTok.
4. Pick the date and time.
5. Press Send for approval.

Why does it say 'awaiting approval'?

B

Your account manager checks every post before it goes out. Once approved it shows as Scheduled and posts by itself at the time you chose.

Do I need to add hashtags?

B

No. Your salon's hashtags and booking line are added automatically when the caption has none. Add your own if you prefer.

What works best for hair and nails?

B

Vertical videos (9:16), 15-60 seconds: before-and-after, braiding time-lapses, nail close-ups. Post 3-5 times a week, ideally 07:00, 12:30 or 18:30.

TIKTOK INBOX

I got a TikTok notification instead of a post?

B

Normal! TikTok sends our posts to your TikTok inbox first. Open the notification, add a trending sound, and tap Post. Takes 10 seconds.

YOUR DASHBOARD & REPORTS

How do I see what was posted?

B

The Dashboard shows posts this week, what's scheduled, and anything that needs attention. Posts lists everything; tap a platform icon to open the live post.

What's in the Monday email?

B

How many posts went out per platform, a list with links, and what's coming up next week.

A post shows 'failed'?

B

Usually a disconnected account. Press Reconnect on your Dashboard, then ask your account manager to press Retry. We never re-post automatically, so you won't get duplicates.

Who do I contact?

B

Your account manager at Swift Fusion: info@swiftfusion.co.za
